TO: FCC

I adamantly oppose the acquisition of Tribune Media by Sinclair.

Sinclair broadcasting forces their stations to air right wing propaganda. 40% of Americans get their news locally and trust this news source to be accurate. Sinclair is trying to own over 70% of US local stations by purchasing Tribune Media akin to Trump TV. This is a violation of the US antitrust laws and I expect the FCC to uphold to these laws.

We need credible sources that connect with the viewers according to their own individual local news sources, not controlled by one national far right wing ideology.

This acquisition if implemented will be terrible for our democracy. Again I demand that this merger be stopped, for the sake of our country and the future of our children.

Sincerely,
Carrie Levin
